Time: 11:00 a.m. EDT

Dial-In Number: +1 416-764-8658 (local Toronto) or toll free from North America at +1 888-886-7786

About Carbon Streaming

Carbon Streaming is an ESG principled company offering investors exposure to carbon credits, a key instrument used by both governments and corporations to achieve their carbon neutral and net-zero climate goals. Our business model is focused on acquiring, managing and growing a high-quality and diversified portfolio of investments in projects and/or companies that generate or are actively involved, directly or indirectly, with voluntary and/or compliance carbon credits.

The Company invests capital through carbon credit streaming arrangements with project developers and owners to accelerate the creation of carbon offset projects by bringing capital to projects that might not otherwise be developed. Many of these projects have significant social and economic co-benefits in addition to their carbon reduction or removal potential.

The Company has executed carbon credit streaming agreements related to over 10 projects around the globe, including nature-based, biochar, clean cookstove and water filtration projects.
