CARBON STREAMING CORPORATION
CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2023
(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

# 1. Nature of operations

Carbon Streaming Corporation (the "Company" or "Carbon Streaming") was incorporated on September 13, 2004, under the *Business Corporations Act* (British Columbia).

Carbon Streaming is a carbon credit streaming and royalty company focused on creating shareholder value primarily through the acquisition and sale of carbon credits. We provide capital to carbon projects globally, primarily by entering into or acquiring streaming, royalty or royalty-like arrangements for the purchase of carbon credits from the underlying project and then generate cash flow from the sale of these carbon credits. Through the use of these financing arrangements, our strategic interests are aligned with our project partners so we are able to source high integrity projects that advance global climate action and additional United Nations Sustainable Development Goals ("UN SDGs"). This helps position us as a trusted source for buyers seeking high quality carbon credits. Our aim is to accelerate a net-zero future by making an impact with our capital and facilitating immediate climate action.

The Company's common shares ("Common Shares") are listed on the Neo Exchange Inc. ("NEO Exchange") under the symbol "NETZ", common share purchase warrants, exercisable at C\$7.50 until March 2, 2026 (the "March 2026 Warrants") are listed on the NEO Exchange under the symbol "NETZ.WT" and the common share purchase warrants exercisable at \$7.50 until September 19, 2026 (the "September 2026 Warrants") are listed on the NEO Exchange under the symbol "NETZ.WT.B". The Company's Common Shares are also listed on the Frankfurt Stock Exchange under the symbol "M2Q" and trade on the OTCQB Markets under the symbol "OFSTF".

The head office and principal address of the Company are located at 155 University Avenue, Suite 1240, Toronto, Ontario, Canada, M5H 3B7. The Company's registered address is Suite 1700, Park Place, 666 Burrard Street, Vancouver, British Columbia, Canada, V6C 2X8.

All financial information in this document is presented in thousands of United States dollars ("\$" or "US\$") unless otherwise indicated. The Company has one operating segment, being the acquisition of carbon credit streaming and royalty arrangements focused on projects located in North America, South America, Africa, and Asia.

These unaudited condensed interim consolidated financial statements (the "Interim Financial Statements") of the Company for the three and six months ended June 30, 2023, were approved and authorized for issue by the Audit Committee of the Board of Directors on August 11, 2023.

# CARBON STREAMING CORPORATION CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2023 (Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

# 2. Statement of compliance and basis of presentation

### Statement of compliance

These Interim Financial Statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34"). The accounting policies applied in these Interim Financial Statements are based on International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and have been prepared using the same accounting policies and methods of application as disclosed in Note 3 to the audited consolidated financial statements for the six month period ended December 31, 2022 and were consistently applied to all the periods presented unless otherwise stated below.

These Interim Financial Statements do not include all the information and note disclosures required by IFRS for annual consolidated financial statements and therefore should be read in conjunction with the audited consolidated financial statements for the six month period ended December 31, 2022.

### Basis of presentation

These Interim Financial Statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value. In addition, these Interim Financial Statements have been prepared using the accrual basis of accounting except for cash flow information.

### Basis of consolidation

These Interim Financial Statements include the financial position, financial performance and cash flows of the Company and its subsidiary and associate. Intercompany balances, transactions, income and expenses, profits and losses, including gains and losses relating to its subsidiary and associate have been eliminated on consolidation. The Company's subsidiary and interest in an associate are as follows:

		Geographic	Economic	Basis of
Entity	Relationship	location	interest	accounting
1253661 B.C. Ltd.	Subsidiary	Canada	100%	Consolidation
Carbon Fund Advisors Inc.	Associate	<b>United States</b>	50%	<b>Equity method</b>

### Adoption of new and revised accounting standards and interpretations

For the three and six months ended June 30, 2023, the Company did not adopt any new amendments to IFRS, except as noted below:

IAS 1, Presentation of Financial Statements ("IAS 1") and IFRS Practice Statement 2, Making Materiality Judgements - Disclosure of Accounting Policies (the "Practice Statement"): In February 2021, the IASB issued amendments to IAS 1 and the Practice Statement to provide guidance on the application of materiality judgments to accounting policy disclosures. The amendments to IAS 1 replace the requirement to disclose 'significant' accounting policies with a requirement to disclose 'material' accounting policies. Guidance and illustrative examples are added in the Practice Statement to assist in the application of materiality concept when making judgments about accounting policy disclosures. The adoption of these

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

amendments did not impact the Interim Financial Statements.

Several new accounting standards, and amendments to standards and interpretations, have been issued but are not yet effective. These new accounting standards are listed below:

Amendments to IAS 1 – Presentation of Financial Statements

In January 2020 and October 2022, the IASB issued an amendment to IAS 1 to clarify the requirements under the standard for classifying a liability as non-current in nature. The amendments include:

- Specifying that an entity's right to defer settlement must exist at the end of the reporting period;
- Clarifying that classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement;
- Specifying that covenants whose compliance is assessed after the reporting date do not affect the
  classification of debt as current or non-current at the reporting date. Instead, disclosure of
  information about these covenants in the notes to the financial statements is required; and
- Clarifying if the settlement of a liability refers to the transfer of cash, equity instruments, other assets or services.

This amendment has not been early adopted. The Company will perform an assessment of the amendments on its financial statements prior to the effective date of January 1, 2024. Based on the currently available information, the Company does not anticipate any material impact from these amendments on its financial statements.

3. Significant accounting estimates, judgments and assumptions

Significant accounting estimates, judgments and assumptions used or exercised by management in the preparation of these Interim Financial Statements for the three and six months ended June 30, 2023, are consistent with those included in Note 4 to the audited consolidated financial statements for the six month period ended December 31, 2022.

## 4. Corporate restructuring

In the second quarter of 2023, the Company initiated a restructuring plan that resulted in personnel reductions. As a result, the Company recognized a corporate restructuring charge of \$1,635 primarily related to severance and other termination benefits.

## 5. Carbon credit inventory

The Company holds carbon credit inventory from the Rimba Raya project which were purchased and acquired separate and apart from its Rimba Raya Stream (as defined below). For the three and six months ended June 30, 2023, the Company recognized \$34 and \$46 in cost of purchased carbon credits sold, respectively (three and six months ended June 30, 2022 - \$1). Carbon credit inventory does not include any carbon credits delivered under the Company's carbon credit streaming agreements.

# 6. Carbon credit streaming and royalty agreements

The following table is a summary of the changes in carbon credit streaming and royalty agreements for the six months ended June 30, 2023 and the six month period ended December 31, 2022:

	Balance				Balance
	December			Fair value	June 30,

Total	65,681	13,517	4,800	83,998

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

#### **Additions**

For the six months ended June 30, 2023, there were \$4,946 of additions primarily relating to milestone payments under the carbon credit streaming agreements and the entering into of new carbon credit streaming agreements (six month period ended December 31, 2022 - \$13,517).

### Settlements

Settlements reflect the net cash proceeds generated from the Company's carbon credit streaming and royalty agreements. For the three and six months ended June 30, 2023, the Company recognized \$38 and \$42 in settlements (three and six months ended June 30, 2022 - \$nil) related to the Cerrado Biome Stream.

## Fair value adjustments

As at June 30, 2023 management assessed the fair value of the carbon credit streaming and royalty agreements by considering changes in the respective inputs into the fair value model as described below. The Company recognized a net loss on the revaluation of the carbon credit streaming and royalty agreements of \$10,737 for the six months ended June 30, 2023 (six month period ended December 31, 2022 – net gain of \$4,800). The net loss on revaluation of carbon credit streaming and royalty agreements in the current period was primarily related to the Rimba Raya Stream. The loss on revaluation of the Rimba Raya Stream was primarily due to several factors, including: changes to management's estimates for timing of carbon credit issuance and delivery, and the resulting impact to the carbon credit production and sales profile, and an increase in project-specific risk factors, including heightened uncertainty relating to the Indonesian regulatory environment and the new SRN methodology (as defined below), resulting in a higher risk-adjusted discount rate.

The fair value of each streaming and royalty agreement is estimated using discounted cash flow models taking into consideration the following observable and non-observable inputs:

- Management's estimates of expected volumes and timing of the delivery and sale of carbon credits ("carbon credit production and sales profiles");
- Changes to carbon credit pricing assumptions, taking into consideration historical realized prices and overall market volatility of voluntary carbon credit pricing ("carbon credit pricing assumptions");
- Changes to the contractual terms of the underlying stream and royalty agreements;
- Changes in the risk-free interest rate;
- Changes in project-specific risk factors, taking into consideration, among other things, project specific legal, regulatory, political, and methodology risks; and
- Accretion due to the passage of time.

The following significant level 3 unobservable inputs were used to measure the Company's carbon credit streaming and royalty agreements using the discounted cash flow models. Note that the carbon credit production and sales estimated values provided in the below table are per individual project on a 100% project basis, and not aggregated.

Description of unobservable inputs	Range of unobservable inputs for carbon credit streaming and royalty agreements – Six months ended June 30, 2023	Range of unobservable inputs for carbon credit streaming and royalty agreements – Six month period ended December 31, 2022	Relationship of unobservable input to fair value
Carbon credit production and sales profiles	Agriculture, forestry and other land-use projects: 0.034 million to 6.580 million carbon credits produced and sold per year, over 28-year to 51-year terms, with an average of 1.643 million carbon credits per year.	Agriculture, forestry and other land-use projects: 0.034 million to 6.580 million carbon credits produced and sold per year, over 28-year to 51-year terms, with an average of 1.644 million carbon credits per year.	As the carbon credit production and sales profile increases, either through an increase in carbon credits produced and sold per year or an extension in term of the agreement, the fair value increases.
	Other nature-based projects: 0.019 million to 0.363 million carbon credits produced and sold per year, over 2-year to 7- year terms, with an average of 0.307 million carbon credits per year.	Other nature-based projects: 0.363 million carbon credits produced and sold per year, over a 7-year term, with an average of 0.363 million carbon credits per year.	
	Biochar projects: 0.001 million to 0.006 million carbon credits produced and sold per year, over 25-year to 30-year terms, with an average of 0.004 million carbon credits per year.	Biochar projects: 0.001 million to 0.006 million carbon credits produced and sold per year, over 25-year to 30-year terms, with an average of 0.004 million carbon credits per year.	
	Other projects: 0.777 million to 20.515 million carbon credits produced and sold per year, over 9-year to 13-year terms, with an average of 6.187 million carbon credits per year.	Other projects: 0.777 million to 20.515 million carbon credits produced and sold per year, over 9-year to 13-year terms, with an average of 6.187 million carbon credits per year.

	12.3% to 20.6%.	19.6 to 21.6%.	
	Biochar projects: 13.0% to	Biochar projects: 13.0% to	
	17.0%.	17.0%.	
	Other projects: 11.9% to	Other projects: 11.9% to	
	20.8%.	22.7%.	

For the six months ended June 30, 2023, the impact of a reasonable 10% increase and 10% decrease in the estimated carbon credit production and sales profile, with all other variables held constant, would result in an increase and a decrease in the fair value of the carbon credit streaming and royalty agreements

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

of \$8,021 and \$7,783 respectively (six month period ended December 31, 2022 - \$8,474 and \$7,739, respectively).

For the six months ended June 30, 2023, the impact of a reasonable 10% increase and 10% decrease in the estimated carbon credit pricing assumption, with all other variables held constant, would result in an increase and a decrease in the fair value of the carbon credit streaming and royalty agreements of \$7,751 and \$7,612, respectively (six month period ended December 31, 2022 - \$8,114 and \$7,377, respectively).

For the six months ended June 30, 2023, the impact of a reasonable 10% increase and 10% decrease in the risk-adjusted discount rate (as a percentage increase or decrease applied to the risk-adjusted discount rate), with all other variables held constant, would result in a decrease and an increase in the fair value of the carbon credit streaming and royalty agreements of \$7,835 and \$12,452, respectively (six month period ended December 31, 2022 - \$8,266 and \$11,282, respectively).

The following is a summary of the Company's carbon credit streaming and royalty agreements:

(i) On July 30, 2021, the Company entered into a carbon credit streaming agreement with InfiniteEARTH Limited, the project operator of the Rimba Raya project, a REDD+ (Reducing Emissions from Deforestation and Forest Degradation) project that has been conserving tropical lowland peat swamp forests in Central Kalimantan, Indonesia for over a decade (the "Rimba Raya Stream"). Under the terms of the Rimba Raya Stream, InfiniteEARTH Ltd. and its Indonesian subsidiary, PT InfiniteEARTH Nusantara (collectively "InfiniteEARTH") will deliver 100% of the carbon credits generated by Rimba Raya over the remaining 50-year life of the project (which is expected to run until 2073) for sale by the Company, less up to 635,000 carbon credits per annum that are already committed to previous buyers. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and will make ongoing delivery payments to InfiniteEARTH for each carbon credit that is sold by the Company.

Concurrent with the Rimba Raya Stream, the Company and the founders of InfiniteEARTH ("Founders") also entered into a strategic alliance agreement (the "SAA"). Under the SAA, the Founders have agreed to provide consulting services to the Company, which will consist of carbon project advisory services, carbon credit marketing and sales services, as well as assisting the Company with due diligence initiatives on new potential carbon investment opportunities. In addition, the SAA provides the Company with a right of first refusal on any carbon credit streaming or royalty financing transaction for projects that are planned in the future, which includes a portfolio of blue carbon credit projects throughout the Americas.

In December 2022, the Rimba Raya project received validation under the new Indonesian carbon regulation, Regulation No. 21 of 2022 ("Reg 21") and with the government-operated carbon registry, Sistem Registri Nasional Pengendalian Perubahan Iklim ("SRN"). Under Reg 21, all carbon projects in Indonesia must be registered, validated and verified on the SRN carbon registry.

Osisko Gold Royalties Ltd ("Osisko") has provided notice to the Company that it has elected in principle to exercise its Stream Participation Right (as defined below) in respect of the Rimba Raya Stream and the SAA. See Notes 15 and 17 for further information.

# CARBON STREAMING CORPORATION CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2023 (Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

- (ii) On August 16, 2022, the Company closed a carbon credit streaming agreement with Community Carbon and UpEnergy Group to bring fuel-efficient cookstoves and water purification devices to millions of households in eastern and southern Africa under a grouped project model (the "Community Carbon Stream"). Under the terms of the Community Carbon Stream, Community Carbon will deliver a portion of the carbon credits created by the seven projects to the Company, for a term of 15 years.
- (iii) On June 20, 2022, the Company entered into a carbon credit streaming agreement with Will Solutions Inc. ("Will Solutions") to scale its Sustainable Community project in Quebec, Canada and develop and scale its Sustainable Community project in Ontario, Canada (the "Sustainable Community Stream"). Under the terms of the Sustainable Community Stream, Will Solutions will deliver 50% of the carbon credits created by the projects to the Company, of up to a maximum of 44.1 million credits to the Company. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and will make ongoing delivery payments to Will Solutions for each carbon credit that is sold by the Company.
- (iv) On May 13, 2021, the Company entered into a carbon credit streaming agreement with Fundación MarVivo Mexico, A.C. and MarVivo Corporation ("MarVivo") to implement the proposed Magdalena Bay Blue Carbon Conservation Project in Magdalena Bay in Baja California Sur, Mexico which is focused on the conservation of mangrove forests and their associated marine habitat (the "Magdalena Bay Blue Carbon Stream"). Under the terms of the Magdalena Bay Blue Carbon Stream, MarVivo will deliver the greater of 200,000 carbon credits or 20% of verified credits generated by the project on an annual basis, for a term of 30 years starting on date of the first delivery of carbon credits. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and will make ongoing delivery payments to MarVivo for each credit that is sold by the Company.

On December 7, 2022, Osisko exercised its right to participate in and acquire 20% of the Magdalena Bay Blue Carbon Stream. Pursuant to the exercise of Osisko's Stream Participation Rights, Osisko entered into a royalty agreement with the Company (the "Magdalena Bay Blue Carbon Stream Participation Royalty"), pursuant to which it is obligated to fund 20% of the remaining upfront deposit as such amounts are due. See Note 15 for further information.

- (v) On September 28, 2022, the Company entered into a carbon credit streaming agreement with Core CarbonX Solutions Pvt Ltd. and its services provider, Core CarbonX Solutions Private Limited (collectively, "Core CarbonX"), to develop its Nalgonda Rice Farming methane avoidance grouped project located in the Nalgonda District, Telangana State, India (the "Nalgonda Rice Farming Stream"). Under the terms of the Nalgonda Rice Farming Stream, Core CarbonX will deliver 100% of the carbon credits generated by the project for a term of seven (7) years. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and will make ongoing delivery payments to Core CarbonX for each carbon credit that is sold by the Company.
- (vi) On May 11, 2022, the Company entered into a carbon credit streaming agreement with Waverly RB SPE LLC ("Waverly RB"), a subsidiary of Restoration Bioproducts LLC, to support the construction of a biochar production facility in Waverly, Virginia, United States (the "Waverly Biochar Stream"). Under the terms of the Waverly Biochar Stream, Waverly RB will deliver 100% of the carbon credits generated by

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

the project to the Company, for a term of 25 years starting on the date of the first delivery of carbon credits. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and will make ongoing delivery payments to Waverly RB for each carbon credit that is sold by the Company.

(vii) On November 1, 2022, the Company entered into a carbon credit streaming agreement and an associated royalty agreement with Standard Biocarbon Corporation ("Standard Biocarbon") to support the construction of a biochar pyrolysis pilot facility in Enfield, Maine, United States (the "Enfield Biochar Stream"). Under the terms of the Enfield Biochar Stream, Standard Biocarbon will deliver 100% of the carbon credits generated by the project to the Company, for a term of 30 years starting on the date of the first delivery of carbon credits. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and will make ongoing delivery payments to Standard Biocarbon for each carbon credit that is sold by the Company.

Concurrent with entering into the Enfield Biochar Stream, the Company also entered into a royalty agreement with Standard Biocarbon (the "Enfield Biochar Production Royalty"). Under the Enfield Biochar Production Royalty, Carbon Streaming will receive a revenue royalty on volume of biochar marketed and sold by Standard Biocarbon. The Enfield Biochar Production Royalty will be settled in cash.

- (viii) On September 8, 2021, the Company entered into a carbon credit streaming agreement with ERA Cerrado Assessoria e Projectos Ambientais Ltd. ("ERA"), to implement and scale the Cerrado Biome project, which is aimed at protecting native forests and grasslands in the Cerrado Biome, Brazil (the "Cerrado Biome Stream"). Under the terms of the Cerrado Biome Stream, ERA will deliver 100% of the carbon credits created by the project to the Company, less any pre-existing delivery obligations, for a term of 30 years. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and makes ongoing delivery payments to ERA for each carbon credit that is sold by the Company. For the six months ended June 30, 2023, the Company realized settlements of \$42 related to the Cerrado Biome Stream.
- (ix) On May 10, 2023, the Company entered into a carbon credit streaming agreement with Mast Reforestation SPVI, LLC ("Mast") for a post-wildfire reforestation project at the Sheep Creek Ranch in Montana, United States (the "Sheep Creek Reforestation Stream"). Under the terms of the Sheep Creek Reforestation Stream, Mast will deliver 100% of the forecast mitigation units (referred to herein as carbon credits) created by the project to the Company, which are expected to be issued in 2025 and 2026. The Company is responsible for marketing and selling the carbon credits delivered to it under the stream and will make ongoing delivery payments to Mast for each carbon credit that is sold by the Company. Additionally, the Company invested \$2,000 into the parent company of Mast through a Convertible Note (See Note 7).
- (x) On September 8, 2022, Bonobo Conservation Initiative ("BCI") and the Company entered into a royalty agreement (the "Bonobo Peace Forest Royalty"), covering carbon credit revenues generated from the two projects within the Bonobo Peace Forest ("Bonobo Peace Forest Projects") located in the Democratic Republic of the Congo. The Bonobo Peace Forest Royalty will be settled in cash.

CARBON STREAMING CORPORATION
CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2023
(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

(xi) On September 8, 2022, the Company entered into a royalty agreement (the "FCG Amazon Portfolio Royalty") with Future Carbon International LLC ("Future Carbon") covering carbon credit revenues generated by Future Carbon from its interest in four REDD+ projects in the Amazon, Brazil (the "FCG Amazon Portfolio"). The FCG Amazon Portfolio Royalty will be settled in cash.

### 7. Convertible note

On May 10, 2023, the Company invested \$2,000 into the parent company of Mast through a convertible note (the "Convertible Note"). The Convertible Note has a face value of \$2,000 and bears annual compound interest at 6%, with a maturity date of December 31, 2024. The face value and accrued interest of the Convertible Note will automatically convert into equity of the parent company of Mast upon the execution of a qualified financing event, and the Company has the option to convert into equity should a non-qualifying financing event occur. The Convertible Note was accounted for as a financial instrument at fair value through profit-and-loss. As at June 30, 2023, management has assessed that the fair value of the Convertible Note approximates its face value.

# 8. Early deposit interest

On July 12, 2022, the Company executed a term sheet with Citadelle Maple Syrup Producers' Cooperative ("Citadelle") pursuant to which the Company provided \$307 of upfront funding for a grouped sugar maple afforestation, reforestation, revegetation and ecosystem restoration project in Quebec, Canada. The initial funding from the Company enabled Citadelle to achieve initial planting in the Fall 2022 and is intended to support additional plantings.

### 9. Investment in associate

The Company holds a 50% equity interest in Carbon Fund Advisors Inc. ("Carbon Fund Advisors") which was acquired at a cost of \$1,750. Carbon Fund Advisors is the fund sponsor of the Carbon Strategy ETF (NYSE: KARB) and the investment supports Carbon Fund Advisors' launch and ongoing management of the Carbon Strategy ETF, an actively managed thematic exchange traded fund that aims to provide investors exposure to the growing compliance carbon markets.

With two other shareholders owning 40% and 10% of the remaining equity interest, respectively, the Company determined that it had significant influence over Carbon Fund Advisors. As the relevant activities of Carbon Fund Advisors are directed by its board of directors, the Company exercises its significant influence by virtue of its right to appoint one out of two directors to the board of directors of Carbon Fund Advisors. Hence, the Company has accounted for its investment in Carbon Fund Advisors under the equity accounting method.

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

# 10. Right-of-use asset and lease liability

In July 2022, the Company entered into an office lease. The Company has recorded the office lease as a right-of-use asset and lease liability in the consolidated statements of financial position. At the commencement date of the lease, the lease liability was measured at the present value of the lease payments that were not paid at that date. The lease payments are discounted using an interest rate of 12%, which is the lease specific incremental borrowing rate. The right-of-use asset is amortized over 3.75 years.

	Six months ended 30, 2023	d June	Six month ended December 3	d
Balance, beginning of period	\$	333	\$	-
Additions		44		384
Amortization		(58)		(51)

Total undiscounted lease obligations	\$ 507

# 11. Warrant liabilities

The following table summarizes the changes in the warrant liabilities for the Company's Canadian dollar ("C\$") denominated warrants for the six months ended June 30, 2023 and six month period ended December 31, 2022:

	Number of warrants	Δ	Amount
Balance, June 30, 2022	12,319,539	\$	16,746
Warrants exercised	(10,000)		(11)
Revaluation of warrant liabilities	-		(9,376)
Balance, December 31, 2022	12,309,539	\$	7,359
Revaluation of warrant liabilities	-		(5,221)
Balance, June 30, 2023	12,309,539	\$	2,138

The March 2026 Warrants are C\$ denominated and listed on the NEO Exchange. For these warrants the fair value has been determined by reference to the quoted closing price at the date of the statement of financial position. The fair value of the Company's remaining C\$ denominated unlisted warrants has been determined using the Black-Scholes pricing model and the following weighted average assumptions:

	As at June 30, 2023	As at December 31, 2022
Spot price (in C\$)	\$ 1.3	4 \$ 2.51
Risk-free interest rate	4.54	% 3.70 %
Expected annual volatility	77 '	% 78 %
Expected life (years)	2.6	2 3.12
Dividend	r	il nil

The following table reflects the Company's C\$ denominated warrants outstanding and exercisable as at December 31, 2022 and June 30, 2023:

Expiry date	Warrants outstanding and exercisable	Weighted average exercise price (C\$)	Fair value methodology
April 22, 2025	312,000	0.625	Black-Scholes pricing model
December 16, 2025	128,000	0.625	Black-Scholes pricing model

March 2, 2026	8,606,039	7.50	Quoted price
	12,309,539	6.10	

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

# 12. Share capital

### Authorized share capital

The Company has an unlimited number of voting Common Shares without par value and unlimited number of preferred shares without par value.

### *Issued share capital*

As at June 30, 2023, there were 47,107,283 issued and fully paid Common Shares (December 31, 2022 – 46,952,032).

During the six months ended June 30, 2023, the Company:

• issued 155,251 Common Shares for the settlement of RSUs (as defined below).

During the six month period ended December 31, 2022, the Company:

- issued 10,000 Common Shares for the exercise of warrants for gross proceeds of \$29 and having an estimated fair value of \$11, which were transferred to share capital. The market price at the date of exercise was C\$4.58 per Common Share.
- issued 138,113 Common Shares for the settlement of RSUs.

### 13. Warrants

The following table reflects the continuity of all the Company's warrants for the six months ended June 30, 2023 and the six months ended June 30, 2022:

	Number of Warrants	Exercise Price
Balance, December 31, 2021	33,424,670	
Exercised	(43,500)	US\$ 7.50
Exercised	(140,381)	C\$ 4.37
Balance, June 30, 2022	33,240,789	
	Number of Warrants	Exercise Price
Balance, December 31, 2022 and June 30, 2023	33,240,789	

The weighted average exercise price of the C\$ and US\$ denominated warrants was C\$6.10 and US\$7.50, respectively. The following table reflects all of the Company's warrants outstanding and exercisable as at June 30, 2023:

	33,230,789	
September 19, 2026 (September 2026 Warrants)	20,921,250	US\$ 7.50
March 2, 2026 (March 2026 Warrants)	8,606,039	C\$ 7.50
January 27, 2026	2,615,500	C\$ 3.75
December 22, 2025	648,000	C\$ 0.625
December 16, 2025	128,000	C\$ 0.625
April 22, 2025	312,000	C\$ 0.625

# 14. Stock options and share unit liabilities

The Company has a long-term incentive plan ("LTIP"), which was last approved by the shareholders on November 12, 2021, at the annual and special general meeting of shareholders. The Company has adopted the LTIP as a means to provide incentives to eligible directors, officers, employees and advisors. The LTIP will facilitate granting of stock options, restricted share units ("RSUs") and performance share units ("PSUs") representing the right to receive one Common Share of the Company (and in the case of RSUs or PSUs, one Common Share of the Company, the cash equivalent of one Common Share of the Company, or a combination thereof) in accordance with the terms of the LTIP.

Additionally, the Company has adopted a phantom share unit plan to provide additional incentives to eligible directors. The Company's phantom share unit plan will facilitate granting of phantom units ("Phantom Units") representing the right to receive the cash equivalent of one Common Share of the Company. The Phantom Units are recorded as a financial liability on the statements of financial position.

## Stock options

The following table reflects the continuity of stock options for the six months ended June 30, 2023 and the six months ended June 30, 2022:

	stock options	exercise price (C\$)
Balance, December 31, 2021	1,476,000	9.59
Granted	30,000	13.75
Balance, June 30, 2022	1,506,000	9.63

	Number of stock options	Weighted average exercise price (C\$)
Balance, December 31, 2022	1,506,000	9.63
Forfeitures	(38,418)	14.13
Balance, June 30, 2023	1,467,582	9.52

For the three and six months ended June 30, 2023, the Company recorded share-based compensation expense for these stock options of \$196 and \$528, respectively (three and six months ended June 30, 2022 - \$1,189 and \$1,690, respectively). The following table reflects the Company's stock options outstanding and exercisable as at June 30, 2023:

Options outstanding	Options exercisable	Weighted average exercise price (C\$)	Weighted average remaining contractual life (years)	Expiry Date
570,000	570,000	3.75	2.75	March 31, 2026
50,000	50,000	5.00	2.94	June 7, 2026
10,000	10,000	11.05	3.26	October 1, 2026
100,000	100,000	11.15	3.27	October 4, 2026
707,582	256,916	14.13	3.42	December 1, 2026
10,000	3,333	15.43	3.53	January 10, 2027
20,000	6,666	10.05	3.67	March 1, 2027
1,467,582	996,915	9.52	3.14	

## RSUs, PSUs and Phantom Units

The following table reflects the continuity of RSUs, PSUs and Phantom Units for the six months ended June 30, 2023 and the six months ended June 30, 2022:

	Number of RSUs	Number of PSUs	Number of Phantom Units
Balance, December 31, 2021	982,500	-	-
Granted	50,000	-	-
Converted into Common Shares and cash	(166,667)		
Balance, June 30, 2022	865,833	-	-

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

	Number of RSUs	Number of PSUs	Number of Phantom Units
Balance, December 31, 2022	1,896,671	500,000	523,000
Granted	15,000	-	-
Converted into Common Shares and cash	(176,662)	-	-
Forfeitures	(204,508)	(75,000)	-
Balance, June 30, 2023	1,530,501	425,000	523,000

For the three and six months ended June 30, 2023, forfeitures in the period primarily related to the Corporate restructuring (Note 4) and changes in the Company's workforce.

As at June 30, 2023, the fair value of RSUs, PSUs and Phantom Units is \$947, of which the Company considers \$426 to be the current portion of the liabilities, with the remaining \$521 considered non-current.

For the three months ended June 30, 2023, the Company recorded share-based compensation recovery for the RSUs, PSUs and Phantom Units of \$314. For the six months ended June 30, 2023, the Company recorded share-based compensation expense for these RSUs, PSUs and Phantom Units of \$391 (three and six months ended June 30, 2022 – share-based compensation recovery of \$126 and share-based compensation expense of \$1,225, respectively).

## 15. Derivative liabilities

On December 7, 2022, Osisko acquired 20% of the Magdalena Bay Blue Carbon Stream. Pursuant to the exercise of Osisko's Stream Participation Right (defined below), Osisko entered into the Magdalena Bay Blue Carbon Stream Participation Royalty with the Company, pursuant to which it paid \$600 of the upfront deposit (representing 20% of the portion of the upfront deposit paid by the Company to MarVivo to date), and is obligated to fund 20% of the remaining upfront deposit as such amounts are due. As at June 30, 2023, the Magdalena Bay Blue Carbon Stream Participation Royalty has been accounted for as a derivative liability at fair value through profit and loss. The Magdalena Bay Blue Carbon Stream Participation Royalty will be settled in cash based on 20% of the net cash flows generated by the Magdalena Bay Blue Carbon Stream. The Magdalena Bay Blue Carbon Stream Participation Royalty had a fair value of \$680 as at June 30, 2023 (December 31, 2022 - \$680).

Additionally, Osisko has provided notice to the Company that it has elected in principle to exercise its Stream Participation Right (as defined herein) in respect of the Rimba Raya Stream and the SAA, which, if executed will result in Osisko participating in or acquiring 20% of the Rimba Raya Stream and the SAA in exchange for a fixed cash payment (the "Rimba Raya Stream Participation Right"). The parties have not yet entered into definitive documents and therefore, the timing for closing and payment by Osisko to the Company is unknown at this time. The Rimba Raya Stream Participation Right is classified as a derivative liability. For the three and six months ended June 30, 2023, as a result of changes in the fair

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

value of the Rimba Raya Stream as described above, the Company recognized a gain of \$686 on the revaluation of the Rimba Raya Stream Participation Right. The Rimba Raya Stream Participation Right had a fair value of \$nil as at June 30, 2023 (December 31, 2022 - \$686).

### 16. Financial instrument and fair value and risk factors

#### Fair value

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer. During the three and six months ended June 30, 2023 and the three and six months ended June 30, 2023, no transfers took place.

The Company's financial instruments include cash, carbon credit streaming and royalty agreements, a convertible note, accounts payable and accrued liabilities, warrant liabilities and derivative liabilities. The carrying value of cash and accounts payable and accrued liabilities approximates their fair value due to their short-term nature. Cash is measured at fair value based on Level 1 of the fair value hierarchy. Certain C\$ denominated warrant liabilities with a quoted trading price are valued based on Level 1 of the fair value hierarchy. Certain C\$ denominated warrant liabilities (Level 2) where no quoted prices exist have been valued using a Black-Scholes Option Pricing Model with assumptions for risk- free interest rates, dividend yields, volatility of the expected market price of the Company's Common Shares and the expected life of the warrants. Carbon credit streaming and royalty agreements and the derivative liabilities (Level 3) are valued by taking into consideration various observable and unobservable inputs, including the expected volumes and timing of the delivery and sale of verified carbon credits, assumptions around carbon credit pricing, an applicable risk-adjusted discount rate and other contractual terms of the agreement. The convertible note (Level 3) is valued using the intrinsic method based on the valuation of the counterparty's enterprise through various financing scenarios expected to be completed by the counterparty, the probability of the various financing scenarios that might occur and the contractual terms of the convertible note.

#### **Risk Factors**

The Company is exposed in varying degrees to a variety of financial instrument related risks. The type of risk exposure and the way in which such exposure is managed is provided as follows:

(Unaudited; amounts expressed in thousands of United States dollars, unless otherwise indicated)

#### Carbon Market Risk

Carbon market risk is the risk that the fair value of a financial instrument will fluctuate from changes in market forces including, but not limited to, interest rates, voluntary carbon credit prices, and timing and number of anticipated carbon credit deliveries and sales.

#### Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's cash balance is held in credit worthy financial institutions. Credit risk has been assessed as low.

#### Currency Risk

Foreign currency risk is the risk that the fair value of financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company is exposed to currency risk as it incurs certain expenditures that are denominated in Canadian dollars while its functional and presentation currency is the United States dollar. The Company does not hedge its exposure to fluctuations in foreign exchange rates. As at June 30, 2023, the Company held cash of C\$15.0 million in Canadian dollars and had accounts payable and other monetary liabilities of C\$0.9 million in Canadian dollars.

Assuming all other variables remain constant, a 5% weakening or strengthening of the US dollar against the Canadian dollar would result in a change of approximately \$532 to profit or loss.

#### Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk on the cash held in its bank accounts. The income earned on the bank account was subject to the movements in interest rates. The Company has no-interest bearing debt. Therefore, interest rate risk has been assessed as nominal.

#### Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash balances. Under current market conditions and available cash on hand, liquidity risk has been assessed as low.

### 17. Commitments

In connection with the acquisition of carbon credit streaming agreements, the Company pays an upfront deposit to the project partner for the stream or investment. In certain instances, the payment of the upfront deposit is paid in installments, subject to certain milestones and conditions being met. While the timing of such payments is event driven, the Company has made assumptions on the timing of such payments, based on the information currently available. As at June 30, 2023 such conditions had not been met.

As at June 30, 2023, the Company had the following commitments relating to its carbon credit streaming and royalty agreements:

Total	\$ 35,239
Over 3 years	132
1 to 3 years	19,948
Less than 1 year	\$ 15,160

Under its carbon credit streaming agreements, the Company is typically required to pay an ongoing delivery payment to the project partner for each credit that is delivered to the Company and sold under the carbon stream. The timing and amount of such payments is dependent on the timing of delivery and sale of carbon credits, the net realized price obtained on the sale of the carbon credits and the terms of the applicable carbon credit streaming agreement.

From time to time, the Company may enter into sales contracts with customers for the future sale of carbon credits. Under these agreements, payment and delivery of the credits may occur at a future date, once credits are delivered to the Company.

Osisko and the Company are currently parties to an investor rights agreement dated February 18, 2021 which governs various aspects of the relationship between Osisko and the Company (the "Investor Rights Agreement"). Under the Investor Rights Agreement, Osisko has the exclusive right to participate in, and acquire up to 20% of, any stream, forward sale, prepay, royalty, off-take or similar transaction between the Company, as purchaser and/or creditor, and one or more third party counterparties (the "Stream Participation Right"). As at June 30, 2023, Osisko has exercised its right to participate and acquired 20% of the Magdalena Bay Blue Carbon Stream and Osisko has elected in principle to exercise its Stream Participation Right in respect of the Rimba Raya Stream and the SAA.

# 18. Subsequent events

In July 2023, the Waverly Biochar Stream was amended with Carbon Streaming increasing its investment. As part of this amendment, Carbon Streaming will also receive a revenue royalty on biochar sold.
