Early Warning Press Release Regarding Acquisition of Common Shares in Carbon Streaming Corporation by Marin Katusa

TORONTO, ON, September 8, 2026 -- Carbon Streaming Corporation (Cboe CA: **NETZ**) (OTCQB: **OFSTF**) (FSE: **M2Q**) (the "**Company**"), reports that Mr. Marin Katusa (the "**Acquiror**"), the Chief Executive Officer of the Company, has purchased 1,180,000 common shares of the Company (the "**Acquired Shares**") pursuant to a private transaction at a purchase price of $0.92 per Acquired Share for an aggregate purchase price of $1,085,600 (the "**Acquisition**").

The requirement to file this news release was triggered by the Acquiror's aggregate acquisition of 1,476,500 common shares of the Company ("**Common Shares**") since his previous early warning report. Such acquisitions increased the Acquiror's ownership of Common Shares by 2.41% on a non-diluted basis and 2.37% on a partially diluted basis, in each case relative the Company's issued and outstanding Common Shares.

Prior to the Acquisition, the Acquiror owned or controlled an aggregate of 6,049,000 Common Shares and 780,000 Common Share purchase warrants ("**Warrants**"), representing approximately 12.33% of the Company's issued and outstanding Common Shares on a non-diluted basis and 13.7% on a partially diluted basis

Immediately following the Acquisition, the Acquiror owned or controlled an aggregate of 7,229,000 Common Shares and 780,000 Warrants representing approximately 14.74% of the Company's issued and outstanding Common Shares on a non-diluted basis and approximately 16.07% on a partially diluted basis

The Acquired Shares were acquired for investment purposes. Depending on market conditions and other factors, the Acquiror may from time to time acquire additional securities, exercise convertible securities, dispose of some or all of the Acquiror's existing or additional securities of the Company, or continue to hold his securities of the Company.

This press release is being issued pursuant to the requirements of National Instrument 62-103 – *The Early Warning System and Related Take-Over Bid and Insider Reporting Issues*.

A copy of the Early Warning Report will be available under the Company's profile on SEDAR+ at www.sedarplus.ca.

Cautionary Statement Regarding Forward-Looking Information

This news release contains certain forward-looking statements and forward-looking information (collectively, "forward-looking information") within the meaning of applicable securities laws, including statements regarding the Acquiror's future intentions with respect to securities of the Company. All statements, other than statements of historical fact, that address activities, events or developments that the Company believes, expects or anticipates will or may occur in the future, are forward-looking information, including, without limitation, future purchases or sales of securities of the Company by the Acquiror.

When used in this news release, words such as "estimates", "expects", "plans", "anticipates", "will", "believes", "intends" "should", "could", "may" and other similar terminology are intended to identify such forward-looking information. This forward-looking information is based on the current expectations or beliefs of the Company based on information currently available to the Company. Forward-looking information is subject to a number of risks and uncertainties that may cause the actual results of the Company to differ materially from those discussed in the forward-looking information, and even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, the Company. They should not be read as a guarantee of future performance or results and will not necessarily be an accurate indication of whether or not such results will be achieved. Factors that could cause actual results or events to differ materially from current expectations include, among other things: general economic, market and business conditions and global financial conditions, including fluctuations in interest rates, foreign exchange rates and stock market volatility; volatility in prices of carbon credits and demand for carbon credits; change in social or political views towards climate change, carbon credits and environmental, social and governance initiatives and subsequent changes in corporate or government policies or regulations and associated changes in demand for carbon credits; the Company's expectations and plans with respect to current litigation, arbitration and regulatory proceedings; limited operating history for the Company's current strategy; concentration risk; inaccurate estimates of project value, which may impact the ability of the Company to execute on its growth and diversification strategy; dependence upon key management; impact of corporate restructurings; the inability of the Company to optimize cash flows or sufficiently reduce operating expenses; reputational risk; risks arising from competition and future acquisition activities failure or timing delays for projects to be registered, validated and ultimately developed and for emission reductions or removals to be verified and carbon credits issued (and other risks associated with carbon credits standards and registries); foreign operations and political risks including actions by governmental authorities, including changes in or to government regulation, taxation and carbon pricing initiatives; uncertainties and ongoing market developments surrounding the validation and verification requirements

of the voluntary and/or compliance markets; due diligence risks, including failure of third parties' reviews, reports and projections to be accurate; dependence on project partners, operators and owners, including failure by such counterparties to make payments or perform their operational or other obligations to the Company in compliance with the terms of contractual arrangements between the Company and such counterparties; failure of projects to generate carbon credits, or natural disasters such as flood or fire which could have a material adverse effect on the ability of any project to generate carbon credits; volatility in the market price of the Company's common shares or warrants; the effect that the issuance of additional securities by the Company could have on the market price of the Company's common shares or warrants; global health crises, such as pandemics and epidemics; and the other risks disclosed under the heading "Risk Factors" and elsewhere in the Company's Annual Information Form dated as of March 31, 2025 filed on SEDAR+ at www.sedarplus.ca.

Any forward-looking information speaks only as of the date of this news release. Although the Company believes that the assumptions inherent in the forward-looking information are reasonable, forward-looking information is not a guarantee of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein. Except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking information, whether as a result of new information, future events or results or otherwise.
